50 + 2 年展望未来

50+2 YEARS OF LOOKING TO THE FUTURE

关于我们

历史告诉我们很多关于我们的故事：我们由哪里来和我们是誰。我们分享的价值，与我們一起同行的伙伴，及我們心中的未来。我们的源头可以追溯到 **Officine Reggiane** 的经历，这是位于意大利 雷焦艾米利亚地区的一家公司，它塑造并深入了整个机械领域，然后进入机电一体化领域，沃而福 是其中不可或缺的一部分。我们遇到同行的伙伴，以及一起和我们走过来的人和公司，使我们成为世界领先的液压产品、电子产品和完整机电一体化系统集成产品的制造商之一。从2015年开始，沃而福作为英特帕普集团的液压阀事业部的代表。

我们的愿景

经历50年，我们的愿景仍然不变。我们仍然在我们的愿景中认识到自己：通过集成和安全的液压动力解决方案来减轻人类的辛劳。面对下一个50年，我们确认我们坚持传统，但是也有能力发展和适应灵活、一直在变化的市场需求。这就是为什么我们开启新液压数字化解决方案。

ABOUT US

History says a lot about us: where we come from and who we are. It speaks of the values we share, the fellow travelers we have met and also of the future we have in mind. Our roots go back to the experience of Officine Reggiane, a company of the Reggio Emilia area, Italy, that has shaped and deeply marked the entire mechanical, and then mechatronic, district of which Walvoil is an integral part. The fellow travelers we have met, people and companies that have traveled a stretch of road together, have made us one of the world's leading manufacturers of integrated offerings of hydraulic products, electronics and complete mechatronic systems. Since 2015 Walvoil represents the Valves Division of the Interpump Group.

OUR VISION

After more than 50 years of experience, our vision has not changed. We still recognize ourselves in our vision: to alleviate human fatigue with integrated and safe hydraulics power solutions. With another 50 years in front of us, we confirm our bond with tradition but also our ability to evolve and respond flexibly and dynamically to market needs. That's why we started the new **Hydraulic Digital Solutions**.

我们在意大利和世界各地

我们与客户和合作伙伴密切合作，设计未来的驱动，他们应用于不同的行业和市场：农业机械、建筑机械和土方工程机械、起重和运输车辆、工业车辆和特殊应用场合。

我们在意大利的雷焦艾米利亚省和博洛尼亚省，有六个生产基地，和一个机电一体化的研究中心，这个中心是公司 and Walvoil集团所有研发活动的核心。

2004年，我们开始了国际化进程，现在我们可以依靠在澳大利亚、巴西、加拿大、中国、法国、印度、韩国、墨西哥和美国的外国子公司，以及广泛的销售网络，这使我们能够融入世界主要的液压市场。

WHERE WE ARE IN ITALY AND IN THE WORLD

We design the future of motion in close relationship with our customers and partners, who operate in different sectors and markets: agriculture, construction and earthmoving, lifting and transport, industrial vehicles and special applications.

We are present in Italy in the provinces of Reggio Emilia and Bologna, the centre of Italian mechanics and mechatronics, with six production sites and a new Innovation Center, which is the heart of all the Research & Development activities of the company and of the Walvoil Group.

In 2004 we started our internationalization process and now we can count on foreign subsidiaries in Australasia, Brazil, Canada, China, France, India, Korea, Mexico and the United States, and on a widespread sales network which allow us to be close to the main reference markets in the world.

项目文化

项目文化，创造，革新和激情 一直是我们的指导方针 牢记这点，我们期待越来越可持续的明天。关爱人和环境，以及对股东、客户、合作伙伴，和我们对所在社区的责任，我们一直为所有利益相关方耕耘和创造价值。

PROJET CULTURE

Project culture, creativity, innovation and passion have always been our guide. With this in mind, we look forward to an increasingly sustainable tomorrow. Care for people and environment, together with responsibility towards our shareholders, our customers and partners, and the communities we are part of, accompany us in our cultivation and creation of value for all our stakeholders.

沃而福研发新总部， 一个创新中心， 服务全球

公司持续发展，并保持持续投资。沃而福一直都是这样做的，无论是在意大利还是在外国子公司。

新的创新中心，继承了位于雷焦艾米利亚Via Norvegia测试部门的优良基因，并在Corte Tegge工厂扩大了规模，拥有了专门从事技术材料测试、车辆测试、耐久性和性能测试、特殊测试（环境、振动、声学、机电一体化）等的研发实验室。

但 Corte Tegge 工厂远不止于此：除了是沃而福意大利最大的生产和物流基地之一，它现在也是沃而福研发总部、全球研发和技术总部、以及全球电气部件设计和新的生产部门。

A NEW HEADQUARTERS FOR WALVOIL R&D, AN INNOVATION CENTER SERVING THE WORLD

A company that evolves is a company that keeps on investing. And Walvoil has always done so, both in Italy and on its foreign subsidiaries.

The new Innovation Center, which picks up what was sown by the Test Department in Via Norvegia in Reggio Emilia, and now at the expanded site in Corte Tegge, houses the R&D laboratories dedicated to technological materials testing, vehicle testing, endurance and performance testing, special tests (environmental, vibration, acoustic, mechatronic) and others.

But Corte Tegge is more: in addition to being one of the largest production and logistics sites in Italy, it is now also the general headquarters of all Walvoil R&D, Technical Offices and Electronics, design and new production department.
