

## P R E S S

### WALVOIL AT CONEXPO 2026

South Hall 2nd Level, Booth 82440

#### PROFILE

### WALVOIL GROUP, ONE OF THE LEADING PLAYERS IN HYDRAULICS AND MECHATRONICS FOR OVER 50 YEARS. WALVOIL IN NORTH AMERICA

**Walvoil SPA**, born and located in Reggio Emilia, Italy, has been globally purveying advanced hydraulic, mechatronic and electronic solutions to its customers since 1973, becoming the **Valves Division of the Interpump Group in 2015**, group listed on the Milan stock exchange and featuring among the top 40 'Excellence Securities'.

The globally recognised pursuit of innovation and the relentless improvement of Walvoil's products and co-design attitude, paved the way to the quality and service standards for which we are recognised.

Walvoil's international presence underlines our commitment to supporting and networking with customers and partners worldwide.

The pivotal **importance of the North American market** has always been recognised; that's the reason why Walvoil opened its first international subsidiary in the US, in 2004, in Tulsa - OK, where **Walvoil Fluid Power Corp.**'s headquarters is still located.

Another production and commercial site in Red Wing – MN, **Walvoil Canada** in Terrebonne and **Walvoil Fluid Power Mexico**, recently founded in Apodaca, Nuevo Leon, are proof of how Walvoil and the group intend to enable prompt assistance and bolster the partnership with their clients, the main mobile machinery manufacturers, and a capillary dealers' network in the region.

Our values firmly anchor our decisions and our daily activity, and distinguish us:

**Care** - investing in the power of our people, supporting our customers, and building a firm synergy with every partner;

**Sustainability** - protecting the environment and pursuing streamlined processes to preserve as many resources as possible;

**Solidity** provided by our experience and competence, producing long-lasting solutions and high-quality products;

**Authenticity** - a bond with our Italian tradition and innovation; the roots that have led us through more than 50 years of success and the drive for advanced solutions;

**Globally Open** - we have been sharing our vision and expertise across borders, respecting and valuing cultural differences.

## **WALVOIL IN BRIEF**

Walvoil Group can draw on:

- a wide range of products (directional valves, pumps and motors, compact hydraulics, electronic components and software) and solutions for mobile machinery in construction and mining, agriculture, lifting and transport, industrial vehicles and special applications
- 9 subsidiaries across 4 continents, not only the aforementioned USA, Canada and Mexico branches, but also France, India, China, South Korea, Brazil and Australasia
- a capillary distribution network worldwide
- a team of **2,500** people all around the world, of which **100** in North America and **1,500** in Italy alone
- a brand-new Innovation Center, developed for Research and Development activities serving Walvoil and its customers worldwide, that embodies our drive for innovation and product improvement.

Reggio Emilia - I, 27 February, 2026
